PREFATORY NOTE

This volume contains the Letters received at Fort St. George during the years 1745–46 and is the thirtieth in the series of records known as "Letters to Fort St. George." Letters subsequent to May 1746 are all lost. Unfortunately this gap could not be filled in as the India Office does not possess copies of the missing letters.

The manuscript volume has been mended and is in a fair state of preservation.

Council of Fort S^t^. George.

Hoñble Sir & Sirs

We have received your Honour &c^a^. favours of the 14^th^. & 9^th^. Ultimo, and shall do all we can to contribute to the Ships early dispatch, though the late unexpect^d^. Rains have been of great Inconveniency to us it having disapointed Us in the Curing of above a hundred Bales.

We herewith inclose our Consultations and Account of Cloth brought in for last Month with the Accounts of Expences for November the Ballance of our Cash being nineteen hundred & seventy Pagodas, Eighteen fanams 1970 18.

The Warehousekeeper having deliver'd in a Report as entered after our Last Consultation, setting forth that it is requisite the Godown remaining to be built at Tevenapatam Washing Place shou'd be augmented to thirty five Foot long, and that the Godowns at that Place as well as those at Bandipollam shou'd be compounded by a Brick Wall, and farther that there is a great occasion for a new Terrass Godown to be added to our Sorting Place of 100 foot long & 20 broad, as we think these Additions to be absolutely Necessary for the carrying on our Honble Masters Business in a proper Manner especially now their Investment is so considerably Increased. We beg your your Honour &c^a^. will please to send us your Directions thereon. We are most respectfully

Council of Fort S^t^. George.

Hoñble Sir & Sirs

This is to advise your Honour &c^a^. of the Arrival of the Honble Comp^ys^ Ship Princess Augusta, which Ship having fallen to the Southward of Ceylone was not able to beat it round the Island at this Season as the Capt^n^. informs us. And we suppose he now gives your Honour &c^as^. a particular Account of his proceedings. He informs us that wanting money for the Ships Use, he has drawn bills on Us at Columbo for five hundred Pagodas Pag^s^. 500 — — payable to Ezekiel Rabbi at Cochin, which

when tender'd shall be duly Honoured. He says that the Ships seathing is very bad, and her mainmast sprung the latter we will get set to rights here, and shall wait your Honour & cas. Orders, where you will have her proceed to refit. She shall be supplied with what necessary she may want while here.

Hoñble Sir & Sirs

This covers a Copy of the Invoice and Letter that went by the Success together with the Masters Receipt for the Bales.

By the Assistance of Coja Mierza an Armenian Merchant at Metchlapatam who has been very active for the Benefit of the Companys Business I have obtain'd from the New Fouzdar (Mohuttarum Chawn) a Ratification of all the Furmawns granted us by Emawn Sahib, and permission to carry the Five hundred Timbers out of this River without paying Juncan as also to wash and Ship off the Chay Goods from Metchlapatam, all which I shall endeavour to do while this Sun shine lasts, which (the Board will perceive) has been purchased by a Present, but Things are now come to that pass that we may rejoice if our Affairs can be compleated with such an Expence.

Hoñble S^r^. & S^rs^.

We received your Honour &c^ts^. favour of the 15^th^. Yesterday and neither that nor it's Duplicate till the same Day, when the Admiral Vernon arrived but it blows so fresh and the Surf runs so high we are not able to send off any Boats.

We have this made a Calculate according to your Honour &c^a^. orders of what number of Bales we shall have ready by the 25^th^. Instant, which by the best computation we can make is twelve hundred and Nineteen, and by the fifth of Next month we compute we shall have two hundred more, besides Brown Cloth ready to Embale, of which we shall no doubt have more than this Ships Tonage.

We have received the Admiral Vernons Charter Party, Account of Tonoge on board her &c^a^. papers mentioned in your Honour &c^as^. favour of the 15^th^., we shall be guided by the Directions you refer us to in Dispatching the Ship, and shall omit giving the commander the cautions you think Proper to be repeated to Him.

It was an Omission not haveing a Survey made on the Godown as was ordered, which we will take care to send you but Lett the cost be what it will, it is absolutely Necessary for we have but one Godown and that is so out of Repair that we expect the Terrass to fall in daily.

We are most Respectfully

Hoñble Sir & Sirs

I Received your letter of the 12^th^. Novemb^r^. and shall be very carefull in obeying your Hon^r's^. commands in every rispect, four days before your Honour's letter came to Hand I recd a letter from the Governour of Negapatam, (by way of Colombo) adviseing the Packett came safe to him and that he had Dispatch'd them to your Honour, Which gave Me a great Satisfaction for before I was under great concern least they might be intercepted, I would not have Sail'd from Colombo had not I been creditably Informed there being nothing to fear on the Malibar Coast as I have found to be true, I have had our Main Mast on shore here and made as good as ever, I have no perticular news to recommend leaveing that to his Worship here But that I am with Respect

To the Hoñble Nicholas Morse Esq^r^.
President & Governour of
Fort S^t^. George &c^a^. Council.

Hoñble Sir & Sirs

Our last address to your Honour &c^a^. was under the 20^th^. Ultimo advising of the Arrival of Ship Princess Augusta at this Port, and on the 14^th^. Instant we recd yours of the 12 November with Capt^n^. Jacobs orders to Proceed for Bombay to refitt

she was dispatched hence the 18th. & the 20th. She Saild from the Red Cliffs where she filled her Water, The 29th. Mr. Bourchier recēd a Letter from Mr. Clemence Searle at Cochin Advising that the 24th. Instant at 9. in the morning an English Ship was taken by Six of Angrias Grabs & eight Galevats almost within Gun shott of a Dutch Ship in Cochin Road, which we think can be no other Ship but the Augusta, The Natives report that she made a Gallant defence for full two Hours, till mast, Riging and Sails where much Shattered, and we know that he had but five Europeans on Board, so that had the Dutch sent off but hundred or hundred fifty men, no dought but the might have rescued the Ship there is but a very ill return for the many favours their Company's Ships have of late recēd from the English.

Ezekiel Raby has informed us of the draught he has upon us for five hundred Pagodas which shall be duly Honoured when tender'd, Enclosed your honr. &ca. will receive the account Particulars of said Ships Expences at this Port.

Our Honourable Masters Ships Elizabeth and Fort St. George left this Port for grat Britain the 10th. Instant, we have no other news, but that the Tillicherry Warr was not Concluded when we last heard from them of 18th. Inst., nor have we herd from Bombay since the beginning of November.

We Conceive great hopes that as this Ship was taken so farr to the Southward, that either our Grabs from Bombay, or the Walpole, which is detain'd at Tillicherry will retake her before she can Arrive at any of Angrias Ports.

We have advanced the Pattamar Three Rupees, & he will give your Honr. &ca. his reason for being thirty one days on his way here which may be done in eighteen or twenty Days had he arrived in due time this Unhappy accident had not happen'd. We are

Hoñble Sir & Sirs

We wrote you under Date the 25 Ultimo ♆ Brigantine Mermaid Duplicate of which comes inclosed as does Invoice and Bill of Lading for 120 Bales of Callicoes Shipped on board the Betty Brigantine Account and Risque our Honourable Masters with following Papers.

N°: 1. Report of M^r. Robert Goodere concerning the Increase and Decrease of the charges of this Settlement for the Year 1744 compared with the Proceeding Year.
2. List of Christnings, Marriages & Burials at this Place.
3. Doctor Turings Account of the Military that have dyed here this Year.
4. Duplicate Indent for Wares.
5. Duplicate Indent for Stores.
6. Two accounts of money advanced the Merchants and of Cloth brought in by them this year.

The 2^d. past We received the Favour of your Hon^r. &c^a. Letter of the 14^th. December bringing us the Agreable News of the Safe Arrival of 5 of our Hoñble Masters Ships, as the Mermaid was dispatched the 25^th. Ultimo and no Sea Conveyance procurable in this place we forwarded your hon^r. &c^as. Letter to the President and Council of Fort William by the Tappys as soon as it came to hand.

His Majestys Ship Preston imported here the 4^th. Instant & Sail'd the 5^th. We supplyed her with every thing this Place afforded that was possible for us to procure in so short a Time the account of which comes Inclosed.

It gives us the greatest Satisfaction imaginable to read that your Hon^r. &c^t. Approves of the cloth we sent you in September, What goes up now We think to be full as good and shall Use our Utmost Endeavours to procure a large quantaty of the same sort this Year.

As your Hon^r. &c^t. intends us an early Supply of money We shall only add here that we are

To the Honble Nicholas Morse Esq^r^.
President & Governour &c^a^.
Council of Fort S^t^. George.

Hoñble Sir & Sirs

According to our Annual Custom, we now send your Hon^r^. &c^a^. a Summary Account of the Transactions of the past Year under the following heads as Usual.

1^st^. Investment.

The last Years Investment Terminated the 31^st^. Jan^ry^. last when we had Bales remaining Three hundred and Seventeen 317 which we cured and sent your Hon^r^. &c^a^. on the Success Galley & Meermaid Brigantine at the Different Times you thought Proper to Order them as we did Seven hundred and Twenty Eight Bales of this Years Investment.

We have received from our Merchants upon this years contract the first February last to the End of December Two thousand Five hundred and Six Bales, which with what the Merchants have and will bring in this Month when the Contract Terminates will amount to Two thousand Eight and Two Thousand Nine hundred Bales, Exclusive of the above Three hundred and Seventeen, & woud have been more had not the Nabobs Presence at Worriarpollam put that Part of the Country into some Confusion & Prevented our getting any Quantaty of Cloth from those parts for upwards of two Months, as did the Constant apprehensions the People about Salem were in about the Morattas Comeing for a Long Time, Bouth those Markettts are now open and we hope will Continue so.

We shall have by the beginning of next Month upwards of Sixteen hundred Bales Cured & Embaled, Exclusive of the Seven hundred and Twenty Eight sent to Madrass, and should have had more had not the Season from the latter end of September to the beginning of December Proved so very Unfavourable to us to the Branch of our Business; and even this Month which is Still more Unusual after so wet a Mosnoon, we have had Rainy & very Improper Weather for Curing the Cloth.

The Cloth in General in our Opinion is full as good as last Year & Somewhat cheaper all we Desier to say on this subject is we have done our best for our Honble Masters, & if it meets wth. their Approbation It is the Utmost of our Ambition.

The Merchants Ballance the last of December were as follows, Andeapah Thirty one Thousand Seven hundred Pagodas Twenty one fanams & Seventy Three Cash 31700 21 73 of which there is Twelve Thousand 12000 Pagodas in Turned out Cloth in our Possession and for which, now there is no Demand, some of it we shall on restoring take in again as we did last Year at an abated Price, so that in reallity his ballance is less than it was last Year though the Investment is larger. Irsapah Chitty's is Ten Thousand Six hundred & Sixty Pagodas Thirty fanams & sixty Cash 10660 30 60 of which he has advanced upwards of Two Thousand 2000 to the Dimitty Merchants for two hundred 200 Peices which we have received though they were not brought to Account last Month, & we have Three Thousand Six hundred 3600 Pagodas of his in Turned out Cloth, Narain Chittys Ballance is Five Thousand five hundred Eighteen Pagodas & Eighteen fanams 5518 18 — & we have of his Turned out Cloth to the Amount of Two Thousand Nine hundred & Eighty 2980 Pagodas. Suncha Latchmiah Puttys Ballance Four hundred Twenty Eight Pagodas, Nine fanams & Eighteen Cash 428 9 18 of which we have cloth to the amount of Two hundred & Eighty 280 Pagodas.

Revenues.

None of the Cowles being Expired this head remains as it was last Year.

Customs.

It is a great Pleasure to us that the Customs have upon the Whole rather Increased that Decreased this Year because we were apprehensive it would have been otherwise, as the French Warr keeps many Ships from comeing to this Port it being so near Pondicherry.

Expences.

Our Expences this Year are Increased Eight hundred and four Pagodas, Eighteen fanams & Seventeen Cash 804 8 17 for the reasons of which we beg leave to Referr Your Hon^{r}. &c^{t}. to the Calculate that Accompanies this for that Purpose.

Buildings.

In Pursuance to the Directions frō Your Hon^{r}. &c^{t}. we have about half finished the New Bastion at the South West Corner of the Fort. It is done in most Substantial Manner, & so we shall finish the Ditch, as we can gett Bricks & Chunam ; The Damage received by the Storm in October will put us to Some Expence in Repairs, but to no Considerable Amount. These & all other Expences under our Management Shall be carried on wth. all Possible Frugallity.

Debts.

All the Debts upon our Books remain as they did last Year.

Covenanted Servants.

M^{r}. John Graham departed this Life the 30th. April last and being Indebted to the Honble Company the Sum of Pagodas 2195 3 65, by your Hon^{r}. &c^{as}. Directions M^{r}. Charles Floyer Paymaster & M^{r}. Thomas Cooke Secretary administred to his Estate & will send in this Packett a List of his Debts & Credits but we fear the Former will much Exceed the Latter, M^{r}. Alexander Baird arrived here the 9th. of August last & is Stationed under y^{e}. Secretary.

Millitary & Peons.

We have had no Recruits this Year of those we had before Three have been Discharged haveing Served their Time & not being Willing to Renew their Contract, Two have died & Three have deserted, We are Sensible the few Recruits Your Hon^{r}

&c^{t}. have had for your Garrison woud not admit of our being Supplied, but we think it our Indispencible Duty to Express our Concern that we are not more Defencible against our Enemys so near, as we are well assured the Garrison of Pondicherry consists of Eight hundred Effective Europeans, and as Many more Coffrys, Topasses & Peons Regularly Train'd up to Millitary Exercise, & whom they allow full as much Pay to as they do the Europeans & this Superior Force of theirs has kept us in Constant Apprehensions for several months past. We shall not fail to be upon our Guard, & Act in the most Cautious manner for the Safety of our Honble Masters Settlement. At Present we are much Easier than we have been, haveing his Majesty's Ship y^{e}. Deptford in the Road & the Party of men your Hon^{r}. &c^{t}. were pleased to send on her, & which we have ordered on board the Company's Ship Admiral Vernon for her Defence We hope your Hon^{r}. &c^{t}. will Represent home the Necessity of a Reinforcement if the Warr Continues. We have added Thirty to the Number of our Peons & beleive we must Enter more, for as the Investment is larger there are many more Employ'd in going with Money into the Country, & many are Employed in watching our Enemy's Motions & getting the best Intelligence we can.

SUPPLEMENT.

We are now Loading the Admiral Vernon as fast as they will take Bales in hope to have Bales enough to Compleat her Tonnage by the End of this month.

We are most Rispectfully

Honble Sir & Sirs

Since our last of the 21st. Ultimo (a Duplicate whereof is Enclosed) we have received your Honr. &ca. favour of the 13th. of last month, accompanying Duplicate of yours of the 17th. Octbr. with a Packett for our Honble Masters, which being as we supposed a Copy of that Transmitted we sent it to Gombroon with orders to be forwarded by a Different Conveyance.

Yesterday imported here our Honble Master's Ship Prince of Orange from Persia, she left the Downs the 19th. of April and Sail'd in company of their Ships the Pelham, Royal George & Princess Mary under Convoy of the Newcastle Man of Warr who parted Company of the 29th. following in a hardGale of Wind.

On the 1st. June Captain Westcott fell in with the Scarborough, Lincoln, Admiral Vernon & Kent under convoy of the Harwich & Winchester Men of Warr, but the determining to put into the Cape he left them on the 1st. July in Lat, of 18 South and 28 West Longitude from London and Reports that the Men of Warr had buried Many of their Men.

By her we have received a Considerable Consignment of Treasure as well from England as Persia which joined to what the Perchasers at our last Sales have paid in sooner than we expected will enable us to answer your Draughts for Rs. 200,000 more than we mentioned in our last.

In case the Princess Augusta comes hither, she shall have all manner of Assistance in respect to Her being duely repair'd.

Enclosed is a second Bill for Rupees 3000 drawn by Paron Arratoon & Leon of Julpah on Mockel at your Place.

We have as yet no advice of the Pelham or of any other Ships belonging to any Nation being arrived on this coast.

hundr'd, and Three Quarters over & above her Charter Party Tonnage.

Your Honours will be pleased to Observe, we have put on board Three hundred and Ten Bales of Brow Coth [*sic*], which we were Directed to do from Fort S^{t}. George, in case we had not white Sufficient to compleat her Tonnage, which we wish may turn to Account, Although the Seasons throughout the Whole year, have been very unfavourable, for Washing & Curing the Cloth. We have from the first of February

Last, sent to Madrass Three hundred & Seventeen Bales, of last Years Investment, Seven hundred & Twenty Eight of this, & put on Board of this Ship Twelve hundred & Fifty Three besides Three hundred and ten of Brown cloth. Our Whole Investment at the end of Jan^ry^. Account will Amount to upwards of Two Thousand Eight hundred Bales, and for the Reasons, we had not more, we beg leave to refer you to our Annual Letter, to the Presidency, as we take the Liberty to do for all other Transactions at this Settlement, for the Past Year.

Capt^n^. Cooke Petitioned for four hundred & Fifty Pagodas, for his Ships Use which we have advanced him, and in the Packet comes his obligation for the same, as we were not certain of the Exchange & Premium, Usual in these cases, he has left that to be Settled by your Honours in England.

This Ship being compleatly Laden we shall Dispatch her this Day after which she will wait for the Lincoln & Edgebaston which we hourly Expect & his Majestys Ships the Deptford & Dolphin, are now standing in, Under whose Convoy they will Sail

Commodore Barnet, is now cruizing of Pondichery in his Majestys Ship the Harwick the Medway Preston & Lively in company & the Winchester & Medway's Prize are expect'd Dayly to Join them.

We wish these ships a Safe and Speedy Passage & are with the Utmost Rispect

Honble Sir & Sirs

We have received your Hon^r^. &c^as^. Favour of the 21^st^. & the 27^th^. Ult^o^. the Stores you were pleased to send us by the S^t^. David Ketch we have Recd in good Order, as we have the Seven chests of Treasure by his Majestys Ship the Harwich.

Our New Bastion is almost finished & will we hope be ready to mount cannon on in a month, We have requested a Person belonging to his Majesty's Squadron who is recommended to us as Engineer and one Skilled in Fortification to Survey our Works. We Send his report Inclosed. That Part of it that Relates to the Thickning the Parrapet Walls Seems to us Absolutely Necessary, Especially upon the Bastions without which we are Informed it will be impossible any men could say [*sic*] there, were any cannon to be Fired against them, The Expences of doing this in a proper manner our workmen compute to be about 2000 Pagodas, another thing that we are Informed would make it impossible for us to hold out against the Enemy any Time, is we have no Place for ourselves & our People off Duty to be in that is Bomb Proff, An Enemy that knows who full of Building our Fort is, would no doubt atteck us with Bombs & if we have no Shelter it will be impossible to bear them Night & Day, as they woud no doubt throw them. we Some Time Since writ your Hon^r^. &c^a^. the Necessaty there was of Building a new Godown, we now send a Calculate of the Expence of such an one as we then Proposed Amounting to Pagodas 1567. 35—if Cover'd with Timber & Plank, Instead of which if it be Arched and Built Bomb Proof it would Cost Pagodas 2118. 9—According to the Inclosed Calculate and would answer bouth Purposes if occation should Require it, and haveing Such a Security might very Probably prevent our Enemys makeing any Attempt upon the Place, which we refer to your Honour &c^a^. Consideration and shall Act as you think Proper.

We are most Respectfully

Fort St. David Report of the Condition thereof by a Survey taken March the 1^st^. 1745/6.

Ramperts of the West Curtain Slopes outwardly too much, which will occation the Shot to Pass above the intended mark, by the Reverting of the Guns Especially when by often Fireing they become Warm & Recoil much, which is a General known Property attending all Cannon in time of Action.

Parapets are all in General too Slender & thin, Especially the East & South Sides, but may be good & Serviceable by a Wall Raised within side to make them a least Six foot thick the Interstices between the Wall to be filled w^h^. Earth, and the Talus of the Top of the Merlons made to Slope to the Outer Wall of the Ditch & a new Banquet made.

Embrasures The Slope of the sides being made nearly Equal, bouth without and within & there being Cut too deph for the Carriages Exposes the Men to much to the Enemys Shot, therefore if the Parapet is Doubled the outward Slope soud be Continued Inwardly to within One foot of the Parapet. Their Depth is likewise great Weakening to the Merlons.

Those Faces on which the Guns are at less than Twelve feet distance from each other, as on the South East Bastion the Embrassures should be altered & less Guns Placed thereon, So as the Merlons may be Extended to the Distance beforementioned.

If the Parapets is Encreased to six feet thick, There is no flank of any of them that will admit of more than one Gun which will be a great Weakening in case of a Seige, Especially if the Enemy raises their Batteries against the Face of any Bastion on the Satient Angle thereof (the Method of attacking mostly in Use) for then [there] will be but two Guns from the Flanks of the adjacent Bastions which will bear on them, & which they will soon Endeavour to Dismount.

CURTAINS By Increaseing the Parapets, the North & West Ramperts will not Admit of more than Eight, & y^e^. South and West of more than Twelve feet for those Guns now mounted on then to revert on, without running on the Tops of the Godowns, & if the same or any larger Guns shoud be Mounted in Feild Carriages there will not be so much Room for Reverting by so much as they will Exceed the Ship Carriages, the Guns are now Mounted on in length.

GUNS In General are too small but Especially on the Bastions bouth in Face & Flank, which will admit of Twenty four Pounders, those on the Curtains may be less, Especially as the Ramperts are narrow.

CARRIAGES Considering the Condition of the Fort, Ship Carriages will be much more convenient than Field ones.

FOSS BRAY By Increaseing the Parapet to Six feet, there will be but Two Flanks will admit of two Guns in each, which are the Eastern Flanks on the North West Bastion & the Western on the North East, the rest will bear but one Gun in each

FOSS BRAY The Foundation of the Whole appears to be very bad but more Especially on the West Curtain.

The narrowness of the Eastern Curtain will to much Expose the Men to the Rubbish of the Rampert & Parapet above them, If the Enemy shoud Attempt to Batter that Part.

Were the Foundation to be trusted, the Bastions are Capable of admitting Large Guns to be Mounted threon which woud add much to the Strength of the Fort, Especially as there are no out Works As the Curtain is not Continued on the South Side, the South East & South West Bastions of the Fort, but woud be of much more Service if the Stables & Storehouses were cleared away & the Two Bastions Joyned by a Proper Curtain.

DITCH Is too Narrow at least by one half thereof.

CASERNS Are Entirely Wanting for the Security of the Garrison & ought to be Bomb Proof may be made on each side the Gate on the Inside of the South Curtain, Proportioned to Contain at least all the Men who are off of Duty.

E. SHERLEY.

HONBLE SIR & SIRS

Your Last Letter of the 23^rd^. Dec^r^. we received the 18^th^. January and in ours of the 31^st^. December we advised you of the Loss of our Honourable Masters Ship Princess Augusta Captain Jacobs off of Cochin, who by the Advices from the Commodore & council there said he was taken by five Grabs & a number of Gallivats without making any Resistance but we since hear by a Lascar who was on board her, & has made his Escape that the Enemy was repulsed twice on their attempting to board him & that the Capt^n^. was shot before they struck the colours.

We are now dispatching the Prince of Orange Capt^n^. Westcott for Great Brittain & daily expect the Essex Capt^n^. Jackson who is to proceed on a voyage to Judda.

We have no news yet of the Pelham.

M^r^. Dudley is appointed to succeed M^r^. Geekie as Chief of this Settlement.

Should any thing occur on this Side which is requisite to acquaint you of will not omit doing it & are

COUNCIL AT FORT S^T^. GEORGE.

HONBLE SIR & SIRS

We have been favoured w^th^. your Hon^r^. &c^as^. Several of the 14^th^. Decemb^r^. 1^st^. 2^nd^. 11^th^. and 23^rd^. Instant, & it was w^th^. the Utmost Pleasure we had the News of the Arrival of our Honourable w^th^. you of which the following have since Imported here Viz Scarborough, Royal George & Kent We are Sorry we cannot give your Hon^r^ &c^a^. any advices of the Princess Mary, but hope with you she & the London may have called in at Batavia.

We esteem ourselves obliged for the Supplys by the above Ships, those ℔ Scarborough & Kent on Surveying were found to come out short Viz^t^. by the former

5 Rupees & the latter 1 Rupee which the Captains have made good here. That by the Royal George came out Right.

It is a Pleasure to us to find your Hon^{r}. &c^{a}. have aided this Presidency by takeing out all the Lead ꝑ the Kent & Admiral Vernon, and We observe you will Endeavour to dispose of the Copper by the Admiral Vernon & Lincoln, which you belived would be as much as you should be able to do advantageously, We can only refer your Hon^{r}. &c^{a}. to your former sentiments on this head, & dont doubt but you will assist us as for as in your power in the Disposal of this Article, which is at Present is likely to prove so heavy on our hands, from the Incursions again of the Marrattoes into this Province, which has put an entier Stop to Trade all through the Country. They are now Encamped on the Island of Cossimbuzur & said to consist of 50000 within no great Distance from the Nabob whose army is said to consist of the like Number, what will be the Event of these Affairs we cannot Determine.

We have adviced Messeurs Beecher & Rider of what your Hon^{r}. &c^{a}. mentioned in regard to the Silver landed at your Place, belonging to them & presume they will give necessary Instructions for the receiveing it.

It is no small Satisfaction to us that the Ships now arrived here came in time to be dispatched for Europe this Season, for by all appearances we are in hopes of getting away the Scarborough & Royal George in Charter Party time, for which purpose they are bouth Loading as fast as Possible.

The Wager was dispatched from Ingillee the 8 Ins^{t}., on her the late President Thomas Braddyll Esq^{r}. took his Passage for Europe & is succeeded by the Honourable John Forster Esq^{r}.

We now return the Sumatra Captain Charles Milne to your Hon^{r}. &c^{a}. & have Laden on her Sundry Stores for your Settlement as ꝑ Invoice & Bills of Lading enclosed Amounting to Current Rupes 6225. 15. The remainder of your Hon^{r}. &c^{as}. Indent shall be compleated by such other conveyances as may offer. We also send Sundry Stores for the Use of his Majestys Squadron for which is Enclosed a separate Invoice the amount thereof being Current Rupees 4375. 13. 9. your Hon^{r}. &c^{a}. will Please to Account with Commodore Barnett for the Same.

Cap^{n}. Robson haveing endeavoured to stop the Kents Leake at Rogues River finds it impractable there therefore proposes bringing her up to May Poor or this Place as he finds most convenient for that purpose, as he tells us he cannot assertain when he shall be able to take any Salt Petre on Board for Your Presidency till he has further Inspected her, it remains Doubtfull whether she will be able to proceed in time from hence to save her passage this season, if it should so happen We shall take into Consideration how to Send your Hon^{r}. &c^{a}. the Quantity of Petre you write for, whether on the Honourable Companys Sloops or what other Conveyances may offer.

Yesterday Evening the Tryal Sloop returned from Merga where she had been Sent with Provisions for his Majestys Squadron but Arrived there to late, the commodore with his Fleet being Sailed a few Days before she Reached that Place. As We apprehend the Stores that were on board her may be wanted for the men of Warr, We are preparing the Porto Bello Sloop & shall Dispatch them to your Hon^{r}. &c^{a}. in a few days.

Enclosed we send for the notice copy of the master of the Tryal Sloops letter to us setting forth his reasons for not reaching the men of Warr, wherein your Hon^{r}. &c^{a}. will Please to observe he mentions two Sloops & a French Ship of Force being at Merga.

We wish the Sumatra safe to your Hon^{r}. &c^{a}. & are

Your Hon^{r}. &c^{as}. Favour by the Venkatasium with the Rupees, Broad Cloth & Stores reached me the 2nd. Instant.

I am extreamly concerned to find my Cloth has turned out so Indifferent, I have only to Represent to your Hon^{r}. &c^{a}. the Difficulty of takeing a Sett of People, off from one Employ & engageing them in another, & more Especially of bringing them to perfection in that Employ the same Year; I shall take all Possible care to prevent any occation of complaint this Year.

I should by very glad if I could comply with your Hon^{r}. &c^{as}. orders about Washing the cloth the Woddyear People make no Use of Washers, & there are but two Familys here to Wash cloth for the whole Place, I have endeavoured to Bring them from Bimlipatam; but Besides that they have Sufficient Employ from the

Dutch, their Prejudice to this Country is not to be Removed, by any Encouragement I have been able to offer them.

We have Received your Favour ℔ Ship William & Sarah accompanying eight thousand Arcott Rupees for the Use of Ganjam Residency together with Six thousand 6000 Madrass Pagodas to be equally Divided between this Settlement & Ingeram.

We have acquainted Gunnapunda Tommiah wth. Your Honr. &cas. Sentiments on his Ordenary Long Cloth & at the same time told him how acceptable it would be to you if he would furnish the company with 3 or 4 hundred Bales that is good to which he made no other Reply than that it was not in his Power to get cloth of a better manufacture as long as the Dutch gave such incouragement to this Indent as long as he continues so firm in their Interest & pay so little Regard to ours it is easy to be perceived that there will be very little Cloth made in that Country of our Sortments.

The many Washers imployed at Present by the Dutch bouth at Bimblepatam & Kakanarra is a great hindrance to us in that branch of Business, however Your Honr. & ca. may be assured that we shall get all the Cloth we Possible can Whitend.

Our last to your Hon^r^. &c^a^. was by the Sumatra Duplicate whereof We now enclose with the Account Expences reparing that Ship & Account Stores Delivered hers also her Second Bill on Ladeing for the Sundrys designed on her for your Presidency & for the Use of his Majestys Squadron.

The Redwood Received ℔ Sumatra on Weighing off was found to come out Short 96 mds 23 srs. which we have endorsed on the Bill of Ladeing & send it enclosed that you Hon^r^. &c^a^. may demand the same of the Captain a Person appointed by him being at the Weighing it off.

On the 18^th^. Instant the Capt^n^. Robson being come up before our Fort We ordered her to be Surveyed by Capt^n^. Westcott Capt^n^. Feild, the Master Attendant & M^r^. Snodgrass Carpenter by whose Report & from the Date, finding it impossible for her to be Repaired so as to be ready to proceed in time to save her passage to your Settlement this Season. We have ordered the Bombay Tryal & Calcutta Sloops to be got Ready, & shall Lade thereon as much Salt Petre as they can take in which we compute to be about Two Thousand/2000 Bags & shall fill them up with some Bale Goods w^ch^. We have to send on our Hoñble Masters account and what Packing Stuff they can carry.

As your Hon^r^. &c^a^. wrote so pressing for a quantity of Petre & haveing no more Vessells of the company whereupon to Lade it We came to a Resolution of Freighting as much as we could on the Tavenapatam the only ship ready to proceed to your Port, & have accordingly Laden on her Four Thousand Five hundred Baggs as ℔ Invoice & Bill of Ladeing enclosed Amounting to Current Rupees Fourty five Thousand Six hundred Fifteen (45615) the owners of her haveing agreed to take the above Quantity on her for Eight Thousand Current Rup^s^. (C^Rs^. 8000) your Hon^r^. &c^a^. will please to Account with them, for it, We must desire your Hon^r^. &c^a^. to be as sparing of the Petre We are now sending You as Possible as we are Yet at great Uncertainty about the Quantity procurable for the coming Season.

Our Hoñble Masters Ships Scarborough & Royal George were Dispatched from Kedgere the 26^th^. Instant.

Honble Sir & Sirs

We have Recd your Honr. &cas. Favours of the 13th. & 27th. Past, In answer to the Former its with the Utmost Satisfaction we observe that our Merchants performances as well as ours in Regard to our last Years Investment, have met with your Honr. &cas. Approval We shall not fail to do whatever lyes in our Power to deserve your Honr. &cas. Favour and Approbation.

As this Years Investment continues in the same channel & goes on Exactly in the same manner as last, We not think it necessary to trouble your Honr. &ca. on that Head.

On our Representing to our Merchants the Favourable curcumstances you are Pleased to mention of Cotton & Grain being Cheap, & the Country in perfect Peace, They had before the Receipt of your last Favour prevailed with the Weavers to Lower the Prices of the Cloth According to the Inclosed List.

We are sorry to observe our Supplys of money are likely to fall Short at this Favourable Juncture, but it is a Natural Consequence that must Attend the Failure

of two Ships whatever you Proper to send shall be advanced according to your Directions, & we are Extreamly Obliged to your Hon^{r}. &c^{a}. for your Just Representation that in Case the Investment Should Fall Short as in all Probabillity it must, our Hoñble Masters may know the True Cause & not Impute it to any Neglect in us.

What we mentioned in ours of the 13th. Ultimo concerning Thickning the Parapets was not meant as the only Use of that Work though a very Material one, Another great if not Chief Advantage that will Arrive from it, will be makeing the Embrasures of a Proper Size, & Shape; at Present they are greatly too large & of a very Improper Form, In so much that not only the Gun but great part of the Carriages is very much Exposed & consequently the People must be so to, & although in some Places the Parapet is Five feet thick, yet close by the Guns that part that Forms the Embrasure where it ought to be thickest, It is not above one Foot Thick, which would be immediately Drove in upon the People at the Guns & it is but in Few places that any part of the Parapet is Five feet thick In others it is but Two, and in others there is no Parapet at all. On the Whole by the best Information we can gett here It is look'd upon as a most Necessary Work, & therfore our Duty to Represent, & then Submit to your Hon^{r}. &c^{as}. by this account Yr. Honr. &ca. will Please to Observe, how far the Investment of this Place increased or Decreased from the Withdrawing or Continuing that Factory it certainly is in the Power of ye. The French had Formerly an Inclination & how far (when their Affairs will Permit) Our withdrawing may induce them to Settle near Madapollam. I leave to your Honr. &ca. N°. 82

To the Honble the Governour
&c^a. Council.

Honble Sir & Sirs

Your Hon^r. &c^a. must already have been informed that M^r. Curtis Barnett, Commodore of the British Squadron now in India, on the 9 Instant, was guilty of Attacking a Ship that Come from the Malabar coast, Called the Poudichery, belonging to the French Company, that was at an Anchor in this Road, Under the Protection of our most Gracious King, whereby he not only lost all Respect Due to his Majestys Fort, but also Broke through all the Rules of Neutrality according to the Law of Nations, & without Giveing the least Notice of his Intentions on shore, he sent two of his Frigates very near in shore close under the Fort, which not only Attacked the French Protected ship, but also Fired on the shore, insomuch that several People were Killed & wounded in the Fort & Town.

By a Remonstrance which M^r. Barnett Sent us on shore he wants to excuse himself of this Fault & the violence Committed & throw the Blame of it us & the French Captain, according to the Report, he says he has Received from his Officers, as will be seen by a Copy of it hereto annent [*sic*] N°. 1 whether this Excuse of M^r. Barnett's of any Validity Your Hon^r. &c^a. may judge by a Prospect we sent by one of his Officers in the Danish Tongue with a Translate of it in Dutch, of which you have herewith an Original of the same Tenor under N°. 2 & a translate under N°. 3 which will be more fully proved in proper Time & place, by a Judicial testimony of the whole transaction in Due form and furthermore it is evident from M^r. Barnetts Rash & Inconsiderate proceeding on the subsequent Days Viz^t. 10. 11. 12. 13 Instant, that from the begining he had no intention to shew the Least regard to his Majestys Fort & Road; for the Protected French Ship being already on Shore on the 9 Ins^t. close under the Fort, & nobody on board Her as a lost Ship, She from that Moment became the Property of his Danish Majesty as a Wreck; notwithstanding, which he sent his People on board the next Morning, who During the said four Days took out of her, her Sails, Cables, Anchors, Guns, & every thing he thought proper, but her masts, & the small Quantity of Ropes that were left on board, cutt into small Pieces, & Scuttled the Ship in several Places. It will be a very Difficult matter for him to clear himself of this Rash Proceeding when he is called to an Account for it.

We judged it necessary to inform your Hon^r. &c^a. (as the Supreme Government of the Honourable English East India Company on the Coast of Choromandel) of these Particulars, on the behalf of our most Gracious King & the Royal Danish East India Company, & we Desire this Letter with the Papers annent [*sic*] N°. 1 & 2, may be transmitted by the first Conveyance of Shipping to the Honourable the Court of Directors of the English East India Company, It is possible that the Consequences of this Rash Action of M^r. Barnett's may be felt by the said Company or those under their Protection in India, in Case the Ships of either should be Obliged to Seek for Protection under his Majestys Flag.

Your Hon^r. &c^a. must remember in the Case of M^r. Robert Nortons Brigantine which was taken in this Road by the French in the month of March of the Proceednig Year, & was immediately Restored on our Reclaiming her. We are with all manner of Esteem & Respect

SIR

All that happened last night was contrary to my Intention & ought to be deemed a violence committed by your order. I sent two of my Frigates to observe the French Ship one was ordered to Anchor to Eastward and the other to Northward of her, but the Captains were Strickly Cammanded not to Fier or do any act of Hostility & only Direct'd to make Signals in case the French Ship gott under Sail, I give you my Woord of Honour, that those were my orders & that I did not intend they should attack the French Ship.

Ob[s]erveing some Firing toward Eight O Clock as I thought from the Fort I sent an officer, with my orders to the Captains of the Frigates to move further off & not to make any Return to the Fire, when the Officer came he told me the French Ship fired at the Lively before she Anchor'd & that soon after, you began to fire at Her from the Fort before she Fired one Shot. This I thought inconsistent with the Rules of Neutrality on your Part as well as that of the French Captain, & therefore sent orders to the captains of bouth the Frigates to destroy the French Ship.

It appears to me that you have been grosly Partial to the French had I attacked her under your Fort, You certainly ought to have given her all the Protection in Your Power.

But you as well as the French began the Attack & are therefore answerable for the Consequences & if you Don't immediately order every thing taken out of that Ship last Night, to be Delivered to my officers I shall be under a necessity of Shewing my Resentment of this Your Breach of all Neutrality & Frendship.

To this I expect your immediate answer and am

SIR

As this, His Majesty's our most Gracious Kings Castle, with the Town & Road thereto belonging which is open to you all & to every body of his Majestys Allies & Friends, and as intirely Neutral ought to be Respected, On the last Past 9th. hujus (new Stile:) in the night Time by two Frigates detacht from your Escadre, no less openly than Willingly has been in an Hostile manner attecked, together with a Ship laying in the Road at an Anchor, belonging to the French Oriental Company and Under his Majestys high Protection, without the least Reason given neither on our Side nor on the Ships, & this so Violent & furiously, that Several people bouth in the castle & Town have suffered thereby on their lives & Limbs, Nay the Protected Ship has been so ill Used, that it's Equipage (crew) as many as were still alive saw at Last no other means than to lett the Ship Run on Shore & Save themselves as well as they Could, Which all being so & no otherwise we can & shall prove by many & Undoubted Witnesses dareing also appeal to your own & your officers Consciences who without all Doubt shall agree that this is the Certain truth of the Affair We say that as this is the Certain truth so we Desire yourself to Consider with what a great Surprize we of our Missive, Dated on board the Harwich March 30 (old Stile) have been informed you only & intirely lay the Fault of what on your Side has been Committed, upon us & the Protected French Ship as if we & the said French Ship had broken the Neutrality which you intended to Continue & preserve.

We are Ready to beleive & Receive the Contestation which you have made upon your Honour, in Regard to the Orders, which the Captains of the Detached Frigates had from you Concerning the Conduct they Should observe in his majestys Road, but if such your orders have been obey'd by the Captains so as to be agreeable to your intention and their Duties such ought you to have enquired nearer into, before you blamed us for breaking the Neutrality and Shewing Partiality in Favour of the French.

That we have a Right to admit the French Ship to stay in our with us & to accord the Protection in his Majesty's high Name is a thing made out &so plain that you yourself cannot blame it, but must owe it to be just.

And when now your, into our Road Detached Frigates [Especialy one] not only went nearer to the French Ship than any one would do, who has nothing Suspecious nor any hostility in mind, observing all good & Usual Sea Customs, but also begun to Canonade So Shap th[at] the Balls went over the Ship, Castle and Town, what was then to be done from both than to pay you in your own Coin, & to withstand Violence with Force as much as could be done at such a time when we expected no hostility from any body but lived in Peace & good Understanding with all.

If the Captains of the Two Frigates for to Cover their Misdemeanour, will make Use of a Couple of Canon Shott [which the French Ship Fired before they] & preten'd that the Same was fired upon them as the begining of the Battle which soon followed so answers the French Captain who is now Present with us that it was done to no other Purpose than to give a Signal to that that Sailed to the.

That the Same should lay at so some Distance from him that he may be Secured from being Suddenly over run.

This prudence which the French Captain Used Can no body Call Unreasonable who will but a Little Consider the present Circumstances he was in & this was not intended to offend the Frigate the manner of Fireing itself will Shew, & we are Perswaded that you yourself would not have done otherwise than what he did if you had been in his Stead.

We have said above that we can & shall Shew & prove by Undoubted Whitnesses [*sic*]that we have here asserted and as the Examination of this Affair is appointed to be to morrow in the Afternoon at 2 O Clock before a Setting Justice in the Castle, So we invite you to meet us either yourself or any body else whom you shall Please to appoint & give Power to act on your Side & who Understands any of those Languages known to us as Danish, High German, Dutch, or Suedish, that he may be Present by the Examination & Ask & try the Whitnesses as much as he shall think Proper & our Friendship can admit off, a greater impartiality we cannot Shew nor can any body Desire of us, but in Case of Absenting, yourself at the Appointed Time we will for all that proceed with the Examination as th[ere] now is the Contestable truth that neither we nor the Fre[nch] Ship but you or your Detached Frigates have Acted against the Neutrality & broke the same in a most blamable manner Consequently you ought to make good for the Affront and inconveniances which is already followed & for the future may Follow.

So is it also very Surprising that above the aforementioned Misdemeanour against the Neutratily of the Town & Road you sill [*sic*] have added another Injury to his majesty's Shoar Right When you have made yourself Masters of the Protected Ship Since it was Driven on Shoar just under the Castle & deserted by the Crew as a Wrack & taken out & Still do take out all what you will & can carry away & according to all Appearances it Seems you intend at last to Set fire to it Though as a Stranded Ship it Ipso Facto belonging to his Majesty.

And all this Yet not Enough but Still you demand & desire of us whatever the French Ships Crew have Saved & brought along with them when they in the Night time retired from the Ship.

Against all such yours & your inferior Officers Actions & behaviour we are Obliged in the Name of our most Gracious King, & his Majesty's Octroyerede Danish Asiatick Company in the most Solemn Manner to Protest with a reservation of the

benifit of such a Satisfaction as According to Justice & Equity Can & must follow to an Equivalent for Damage & Expences to a well Deserved Punishment for the Guilty, & to an Example & terrour for others, We Remain

[Hoñble Sir & Sirs]

We have received your Honour &c^{a}. Favour of the 9th. wherein to our Great concern you are pleasd to say we have not followed your Honours orders in either Instance, which as it seems to intimate more than one Order in your Favour of the 2^{d}. a good deal puzles us nothing but a misunderstanding one order could Possibly make us deviate from it, and tho we have again and again perused your said Favour with the utmost Attention and consideration yet we can find but one order to us in the whole letter which to repeat your Hon^{r}. &c^{a}. own words is Expressed as follows "That on receipt hereof you imeadiately secure the person of M^{r}. Cole now at your place till he gives us a proper Security &c^{a}. The first part of this is only in our powr to comply with Viz^{t}. the Securing the person of M^{r}. Humffries Cole, for which purpose we met in Consultation and came to an unanimous Resolution of so doing in such manner as appeard to us reasonable, and which has answerd the purpose so well that in our Opinion he is very secure with us and we will take care he shall remain so till we send him to your Honour &c^{a}. which we realy think is our Duty to do with all possible speed, Consistent with Safety because your Hon^{r}. &c^{a}. are pleasd to make us

Accountable for all the Consequences of an affair we are scarcely Apprized of and cannot possibly be any judges of, any farther than from the very short letter you have thought proper to write us upon the Subject, in which beg leave to Observe you seem to Intimate that the Occasion of this Demand for Mr. Cole is that he may appear at Calcutta at a certain time which our detaining him here from whence Conveyances seldom or never offer might prevent and we by that means bring upon ourselves a Censure as undeserved as unavoidable if he stays here which reflection leads us to resolve to send Mr. Cole on the William Captn. Lewis now here bound for your Port, but as Capt. Payton has Intimated to us that they Companys Snow is not at prest. Useful to the Squadron we think that as a proper Conveyance as we can give the Master proper Orders.

Hon̄ble Sir & Sirs

I am very sorry to Acquaint your of the Misfortune of my being taken by Angria in the Hoñble Companys Ship the Princess Augusta I having lost my Passage from Bencoolen to Madrass occasiond by a Current which set me full Six Degrees to the Westward of Account I saild from Bencoolen Augst. 27th. and had a good Passage to the Line, but there meeting with Calms and the Sun in our Zenith, and a Strong Sely Curr^{t}. that I could not get an Observation for Several Days the Current Continually keeping me under the Sun on the 27th. Septemb^{r}. having made the usual and proper Meridian Distance West for making Zeolon found the Current had set me as far to the Westward by making the High Land of Cape Comerin which I took for Zeloan being very hazey all Day in the Evning clearing up found my Error when by my Acc^{t}. was in the Latitude of 8^{d}. 30 N°, or thereab^{t}. I stood to the Eastward in Order to Clear Zeleon but the Winds hanging so far to the S°. ward & the Cut^{t}. Setting up into the Bay could not fetch any farther to the S°. ward then Negumbo were I came to an Anchor the 30th. September & Rode a very hard Roadstead the Winds being continually at SW: and S°. On the 2^{d}. Day of October the Wind came to West with which I weighd and Anchord the same Night a little to the S°. ward of Columbo when the Wind Shifting to the S°. ward and Blowing very hard for three Days occasiond my giving over all hopes of getting round the Island accordingly I weigh'd the 5th. October and run into Columbo, this being as particular an Account as I can give not having my Journal) from whence I sent the Companys Packet and Letters to Madrass in the Dutch Companys Packet, by way of Negapatam with advice of my Intention to proceed to Anjengo in Novemb^{r}. I thinking the Ship might be of Service to the Company there accordingly I sailed from Columbo the 8th. Nov^{r}. or thereabouts and Arrived at Anjengo the 18th. & on the 13th. December or thereabouts received a Letter from the Hoñble Nich^{s}. Morse Esq^{r}. &c^{a}. Council of Madrass with orders to proceed to Tellicherry to join the fleet in Order to come to Bombay to refit the Ship she wanting several repairs accordingly on the 20th. I received my Dispatches with the Hoñble Company's Packet from M^{r}. Richard Bourchier Esq^{r}. and on the 24th. a working up the Coast being off of Cochin in about 16 Fathom Water when at 6 O'Clock in the morning descryed Angrias Fleet consisting of Six Grabs and eight Gallwatts, I imeadiately Tacked and stood in shore but having little wind the fleet came up with me about 7 O'Clock. Then ℔ Judgment was about 4 Miles from the Ships in Cochin Road When they kept a continual fireing upon me under Our Stern. We made as much use of our Guns as we could they

being but of little Service to us not having any Stern Chase except two Guns we got into the Round House for that Purpose a European and a Lascar being wounded on the Poop at the Small Arms of which We had but Seven disheartned the rest of the people that I could get no body to asist me and my Officers at the Guns Our Mizon Mast was shot away Main Yard, and the Topsail Ties and Fore Geers that I could not manage the Ship to bring the Broadsides to bear upon them, Our Sails was Intirely Shot from the Yards and the people crying to me to desist firing The People of the Grabs calling to them in Moors they would cut every soul to Peices & we being but few myself two Mates One Gunner three Europeans, One of the latter being left sick at Anjengo so that I had but Six People that I could trust to. Nay one of my People fired a Loaded Pisstol at me as I was on the Quarter Deck but fortunately missing me the Ball went into the Bulk head of the round house, upon which I consulted my Officers and found it would be Needless Our Firing any longer accordingly they Boarded us at half past nine took the ship in Toa and sent me on board one of the Grabs which had One hundred Sixty Men two Nine four Six & eight four Pounders mounted, I dont doubt but the others was of the same force, We Arrived at Ezrook or Gereah the 19th. January What he designs to do with us I know not but that he uses us very ill farther my Mate Informs me that after I went from the Ship they receivd more insolence from our Christian Helmsmen and Lascars they being continually Drunk with Arrack which I bought at Columbo about eight Leagers This comes by an Old Moorman that tells me he came from Bombay in a Small Gallivat Loaden with Salt. I beg your Honr. to excuse the Illness of my writing being Obligd. to Write upon my Knee and with great Secrecy I direct this Letter to George Dudley Esqr. least this Angria should find it out & seeing it Directed to the Govr. & Council might produce ill consequences I have no more to add but that

I am with great Respect

TO THE HONOURABLE NICHS. MORSE ESQR.
PRESIDT. & GOVR. &CA. COUNCIL OF
FORT ST. GEORGE.

On the 26th. Ultimo we received your Honr. &ca. favour of the 25th. February.

Our Hoñble Masters Ship Pelham imported here the 23d. Ultimo having been near five Months from the Cape she fell in among the Maldava Islands where she had nigh been losst has buried eighteen Men in the Voyage and has Sixty Down of the Scurvy We have Signified to the Commander our Intention of Dispatching him home by the 23d. Instant but whether he will proceed or no we cant say.

The same Day Arrived likewise his Majestys Ship Winchester Commanded by Lord Thos. Bertie she is now cleaning but her fore & Main Masts being sprung will detain her longer than his lordship intended to stay. By her we shall write your Honr. &ca. again when you may also expect to receive a supply of Treasure.

To the Honble Nichs. Morse Esqr.
Presidr. & Govr. &ca. Council of
Fort St. George.

Enclosed is Duplicate of our last and this Your Honour &ca. will receive by his Majestys Ship Winchester on whom we have laden 60 Chests of Treasure amounting as ℔ Invoice and Bill of Lading to Rupees 518686. 3. 56 which being the amount of Our Surplus Treasure goes consign'd to your Honr. &cs. that you may supply the Gentlemen at Bengal as they may have Occasion and Your Honr. &cs. an Opportunity. We find Lord Thos. Bertie expects to be paid Freight for this Treasure, which we must leave to your Honrs. to adjust.

The 1st. Instant we received the undermentiond Bills from Gombroon drawn on Coja Mokel of your place by the following persons at Julpha Vizt.

By Paron Petros de Sherreman for Rupees	4,480
Coja Arratoon, Leon and Petros	6,720
Rupees	11,200

Which we desire Your Honr. &ca. will receive when due and credit this Presidency for the same.

Upon Capt. Jacobs writing us some time ago that Angria had expressed to him a Willingness to part with the Augusta for the sum of 6,500 Rupees which being greatly less than her real worth and Govr. Morse having wrote the President she was an handy Vessel and Proper for the Honble Companys in the way she used to be employed we took proper Measures for empowring Capt. Jacobs to make the Ransom And in full expectations of his succeeding and Angrias delivering her up at Southen drook we orderd our Grabs in their way to call for for (sic) her at that Port, but in a Letter since receivd from Capt. Jacobs we find that Angria refuses to let her go for less than ten thousand Rupees. Our Endeavours shall not be wanting to get her, if to be had at any reasonable rate, tho we despair of Procuring her before the Rains.

The Walpole returning too late from Tellicherry for us to order her to take in Pepper on the Mallaber Coast, we have dispatchd her directly from hence to Canton.

In our last we advised your Honr. &ca. of our design of dispatching the Pelham to great Britain by the 23d. Ultimo but Capt. Wells setting forth that the Sickly State of his Ships Company and the want of Sundrie Stores rendred it unsafe for him to Proceed we protested against him.

Enclosed is an Account Current with Commodore Barnet with the Vouchers and receipts as referd to signd by the proper Officers We likewise transmitt you Lord Thos. Berties first Bill of Exchange for Rupees 5571—62 upon Commodore Barnet with his Letter of Advice for the Amount of which and the Ballance of the Acct. your Honr. &ca. will please to credit this Presidency And we desire your Honr. &ca. will adjust the same with Mr. Barnett and gett his Bills for the Whole Amount payable in England. all the Directions we have from the Honble Company on that Head being to take their Bills at the rate of 6s & 6 ℔ Weighty Dollar.

We desire your Honr. &ca. will forward the enclosed Packets by the first Opportunity as Directed.

To the Honble Nichs. Morse Esqr.
Presidt. & Govr. &ca. Council of
Fort St. George.

We have receiv'd your favour ℔ Sloop Tryal with the nineteen thousand Pagodas 19,000 sent upon her for the use of this place & Ingeram.

The Merchants who have been acquainted with what your Honour &ca. has wrote us in regard to their lowering the price of Cloth say that were they to do it at this Juncture it would be impossible for them to keep the Weavers under their Command, first because Paddy is risen to so high a price that its but one Degree above a famine In the next place the Weavers get no more than 43 or 44 Dubs in exchange for a Ruppee whereas the commonly used to be at 54 & 55, the Dutch have also advanced large Sums of mony and would not fail were we to insist upon an Abatement to make use of so favourable an Opportunity to engage the Weavers to change the Manufacture of Salampores into that of exceeding bad Long Cloth as the (*sic*) have already done at Bimlepatam This is a Circumstance that may be attended with such bad consequences that its much to be doubted if raising the Prices hereafter would enable us to put the Bussiness upon the same footing it is at present. We therefore humbly beg Your Honr. &ca. will once more be pleased to take this Affair into your Consideration.

We shall be carefull to Comply with the Several Paragraphs of our Hoñble Masters Commands so far as the Nature of our Business will admit of.

We take the Liberty to send herewith two Indents for what farther stores we Shall have occasion for, and if it suits your Honr. &ca. Conveniency we shall be glad to have the packing stuff we indented for under Date the 25th. Decembr.

Inclosed comes our Diarys & Consultation Cash & Paymasters Accounts for last month. We are with all Possible Respect
